

DIVISION 6 CANDIDATE PROFILE

Glenn Lechner

My name is Glenn Lechner and I am running for council in division 6 in the RM of Edenwold.

I am a life time resident of the RM living on the 729 or Etaples grid northwest of Edenwold. I am 6 miles from the pavement so I drive these roads every day. To me RM means rural and we in this area and the whole division are lacking the quality of service we as taxpayers deserve.

We need to be treated as equals to Emerald Park and surrounding subdivisions. I also feel that when there is a major snowfall in the winter close to the weekend that the graders are to be sent out regardless weather it is a Friday or Saturday because in my area there are quite a few seniors that are older then myself and if they require medical attention it would be crucial that an ambulance would get through to the people I forgot to mention that I farm and also I just completed a lengthy stint working for Municipal Hail.

The Edenwold grid west towards the number 6 highway is in terrible shape as the whole road is full of potholes and is washboard from lack of maintenance. I believe the ditches should be cut at least once in early July because many spots west of myself near the Etaples hall have much bush makes impossible to see when wildlife pops out of the ditch.
